New Uponor Distribution Centre Offers More Space, Modern Layout for Greater Operational Efficiencies

To address the rising customer volume in Eastern Canada, Uponor recently moved to a larger, more operationally efficient distribution centre in Brampton, ON. The seamless transition to the new facility, which occurred in late March, ensured no disruption to customer service.

The new location for Uponor's Brampton Distribution Centre features 24,000 square feet of space and a modern layout for greater operational efficiencies.

"The new distribution centre features 24,000 square feet with 28 feet of clear-height warehouse space," says Greg Lawler, vice president, Supply Chain. "This provides Uponor with a facility that meets our long-term needs in Eastern Canada."

Below is the contact information for the new Brampton Distribution Centre.
