National Fire Sprinkler Association Recognizes Uponor for 10 Years of Dedicated Membership

Recently, the National Fire Sprinkler Association (NFSA) recognized Uponor for its 10 years of membership and its continued dedication to the fire sprinkler industry through products, education, training and awareness.

Robert Kleinheinz, north central regional manager for NFSA, presented the anniversary plaque to Uponor's Jayson Drake, senior product manager, Plumbing and Fire Safety; and Eric Skare, product manager, Fire Safety.

"It's rare to have a PEX manufacturer, such as Uponor, be a member for such a long time," says Kleinheinz. "I think it's great that Uponor is training and educating people about this industry. It shows they want to do more than just sell a product."

Uponor's Jayson Drake (center) and Eric Skare (right) accept a 10-year anniversary plaque from Robert Kleinheinz of the National Fire Sprinkler Association (NFSA).

Uponor provides a residential multipurpose system called AquaSAFE™, which combines the fire sprinklers with a home's cold-water plumbing. This integrated design ensures fresh water is always available to the sprinklers each time a cold-water plumbing fixture is used and eliminates the need for antifreeze in the system.

"Uponor is honored to be recognized for our ongoing commitment to the fire sprinkler industry," says Drake. "Receiving this commemoration demonstrates our long-term dedication to the industry and to the advancement of residential fire sprinklers."

Uponor, Inc. is a leading supplier of plumbing, fire safety and radiant heating and cooling systems for the residential and commercial building markets in the United States. Uponor, Inc. employs 380 people at its North American headquarters in Apple Valley, Minn. For more information, visit www.uponor-usa.com or call (800) 321-4739.
