

## Punch&Pull™ PEX Tubing Coils Packaging Page 2

In addition, this packaging aligns with our Lean processes strategy to eliminate waste.”

Any residential or commercial waste management facility will accept the LDPE film, making recycling easy. And because there is no corrugated cardboard, it eliminates special recycling pickups at the jobsite.

The new packaging design will cover PEX tubing coils for Uponor AquaPEX® and Wirsbo hePEX™ products, ranging in size from 5/16" to 1" in 100-foot, 250-foot, 300-foot, 400-foot, 500-foot and 1,000-foot coils.

“This new packaging innovation ensures a sustainable, protective solution that will effectively and efficiently transport our tubing from our manufacturing plant to our North American distribution centers and finally to the shelves and trucks of our professional partners,” says Callier.

**Uponor, Inc.** is a leading supplier of plumbing, fire safety and radiant heating and cooling systems for the residential and commercial building markets in the United States. Uponor, Inc. employs 380 people at its North American headquarters in Apple Valley, Minn. For more information, visit [www.uponor-usa.com](http://www.uponor-usa.com) or call (800) 321-4739.

**With the new Punch&Pull packaging, the user punches through the perforation to access the tubing.**

**When finished, the user simply tucks the tubing end back into the center of the coil and transports the coil to the next job.**
